PHOTOGRAPHY

Experience Guide

This is one of my favourite images of my babies and me taken last Mothers Day.

I am so thankful I have taken photos of my beautiful Mum this year. I know I will treasure these photos for ever.

You'll never regret preserving the magic & craziness of your family...

# Welcome

Hi, my name is Gina,

Thank you for considering me to photograph for you.

I am blessed with 3 beautiful children who are my inspiration and the reason Embellish Photography has been created.

Time is fleeting and I understand how important it is to capture special moments and make beautiful memories that our future selves will appreciate, as well as generations to come.

My passion is photography and art, I'm a creative and i love capturing moments in time.

I'm a hopeless romantic, I love chocolate, spending time with my family and friends.

I've always been that girl with the camera at functions and get to togethers since i was given my first camera at 12 years old.

I love that I am able to follow my passion for photography and create amazing memories for everyone I am fortunate enough to work with.

Please let me know if you have any questions.

*Gina*

## Why book a session with me?

I am accredited with the Australian Institute of Professional Photography and have invested in numerous workshops with world reknown photographers to ensure I know the safest way to handle and pose newborns, capture children, pose maternity clients and families in the right lighting no matter what the weather conditions are.

My studio is purely dedicated to your photography experience and is located just 5kms from Adelaide CBD in Westbourne Park.

As a client of mine you will have access to my extensive collection of props and accessories that have been sourced from all around the world. These include gorgeous outfits for newborn boys and girls, bonnets, headbands, tiebacks, beautiful sitter outfits for boys and girls, backdrops, flokatis in various colours, faux furs, blankets, vine baskets and bowls, stools, vintage iron beds, swings, wooden bowls, and faux florals.

I have a beautiful client wardrobe consisting of luxurious and gorgeous maternity dresses.

For girls we have the designer Dollcake lable with dresses ranging from size 00 to size 16.

Having professional photographs taken is an investment so your photographs deserve much more than just being put on a USB to share on facebook and other social media platforms and then stored in a drawer.

I am a true custom photographer who provides unique and special images that I pour my heart and soul into and specialise in creating finished wall art and fine art products that can be proudly displayed in your home.

## What to expect - the 7 steps

1. Do you like my style? Pop on to my website and have a look through my galleries. make sure you look at the amazing keepsake and finished wall art collections we offer and while you are there have a peek at our beautiful client wardrobe.
2. Contact me so we can discuss your requirements and I can get to know your family.
3. Book in your session, pay the \$250 deposit and complete the questionnaire.  
  
Or purchase a voucher.
4. Prepare for your session, read through the what to wear guides / what to bring guides and provide a photograph of your walls where you would like to display your wall art.

5. Session Day - lets relax and create some magic.
6. Design Consultation occurs approximately two weeks after your photography session, all decision makers need to attend this appointment as you place your order at this time.

We will view your beautiful images and discuss the products we have available, and discuss the fine art products and the wall collections that would best suit your home and family.

Once your order has been finalised I will then place your order with our pre selected suppliers.

7. Collection of your beautiful images and fine art products to display in your home.

'We specialise in creating finished wall art and fine art products that can be loved and adored for generations'

# Maternity

There is something so special and very beautiful about how a woman's body changes and grows to nurture her baby.

Pregnancy is so beautiful and incredible at the same time and although it doesn't feel like it at the time, it does go by so quickly.

Capturing beautiful images of your baby bump is something you will always cherish and I know you and your children will love to look back at what you looked like when you were pregnant which is why it's so important to capture this special time in your life.

You have the option of bringing your own maternity clothes to wear or selecting maternity gowns from our maternity wardrobe. Our maternity gowns are designed to fit your baby bump perfectly and you will feel amazing wearing these gorgeous gowns. It's also the perfect excuse to spoil yourself and have your hair and makeup done so you will feel as beautiful as you look.

Maternity sessions can be done between 32 to 37 weeks.

Maternity sessions can be done in the studio or outside at an agreed location.

If the location is outside, an hour before sunset is preferred to take advantage of the beautiful soft light.

The maternity photography experience includes:

- \* pre session consultation - via phone
- \* photography experience in the studio or agreed location
- \* access to our extensive maternity gown collection (maximum of two dresses to be chosen for use in your session)
- \* images professionally edited
- \* design consultation- all decision makers must attend this appointment as this is when you place your order and finalise payment.
- facebook and instagram sneak peek

Book a maternity mini session for \$495, and receive a beautiful boutique hand crafted layflat 7x5 6pg album of your favourite images. Save an additional \$100 when you book in a newborn session.

Maternity sessions celebrate all the beautiful things about pregnancy...

# Newborn

Babies are truly the most amazing gift, however time is fleeting and they change and grow so quickly, before you know it you will have a 3 month old on your hands.

This is why it's so important that we capture these unique newborn details within the first 14 days as this is when babies are at their sleepest and most curliest so it's easier to pose your baby comfortably.

I'll capture their tiny fingers, curly toes, their flakey skin and their button nose so you will always have memories of your beautiful baby as they are as a newborn.

**Your newborn photography experience includes:**

- \* pre session consultation - via phone
- \* 2 -3 hours photography in my studio
- \* use of our extensive prop collection
- \* images professionally edited
- \* design consultation appointment- all decisions makers must attend this appointment as this is when you place your order and finalise payment.
- \* facebook and instagram sneak peek

# Sitter sessions

Babies grow so fast, especially in the first 12 months so it's important to capture special milestones like learning to crawl, sitting up on their own, their big smiles and tiny teeth, and the chubby cheeks.

Sitter sessions are best to do when your baby is able to sit up confidently, roughly between 6 to 9 months old.

Sitter sessions run between 30 to 60 minutes.

### Your sitter experience includes:

- \* pre session consultation - via phone
- \* photography experience in the studio
- \* use of our extensive prop and gown collection (if applicable)
- \* images professionally edited
- \* viewing and design consultation- all decisions makers must attend this appointment as this is when you place your order and finalise payment.
- \* facebook and instagram sneak peek

# 1st Birthday Cake Smash

A cake smash session is a fabulous opportunity for your little one to celebrate their 1st birthday.

It's a major milestone and your little one can eat and smash birthday cake with praise and I will capture all of it. The smiles of joy, clapping of hands with excitement and the cream from the cake - oh so delicious!!

## **Your cake smash experience includes:**

- \* pre session consultation - via phone
- \* 1-2 hour photography experience in the studio
- \* images professionally edited
- \* design consultation- all decisions makers must attend this appointment as this is when you place your order and finalise payment.
- \* facebook and instagram sneak peek
  
- \* cake not included, but can be arranged at an additional cost

Cake Smash Packages start at \$595

# Bath Session

A bath session is a lovely add on.

The bath session enables your little one to have fun in the bath, washing away the sticky cake and gorgeous photos are obtained while splashing around in the bath.

Bath session \$100 (optional extra with cake smash)

# Children

Childrens' sessions are so much fun and can be done in the studio or on location.

If photographing the session outdoors the session is mostly always done an hour before sunset so we can utilise the beautiful soft sun.

Your children's photography experience includes:

- \* pre session consultation - via phone
- \* 1 hour session in my studio or agreed location
- \* use of my extensive girls designer dress collection (if applicable)
- \* images professionally edited
- \* design consultation- all decision makers must attend this appointment as this is when you place your order and finalise payment.
- \* facebook and instagram sneak peek

# Family

Capturing your family grow is one of the most amazing and rewarding experiences you can share with one another.

Family sessions can be done in the studio or outside at an agreed location.

If the location is outside, an hour before sunset is preferred to take advantage of the beautiful soft light.

Our family sessions are fun and relaxed, I like to stand back and capture all of your families giggles and smiles as I want you to look back at the images we capture and remember how much fun it was creating beautiful and everlasting memories.

I also love capturing fine art portraits that capture unqiue family connections in the studio using textured and floral backdrops.

# Mummy & Me

No one provides comfort the way you do and no one kisses or loves your babies like you do.

The security and comfort you give your children is immeasurable.

Often Mums are the one behind the camera so this session ensures you are in the photos.

Our Mummy and Me sessions are so much fun, you have access to our amazing client wardrobe and we take beautiful photos of the wonderful memories you are creating with your little ones.

We focus on the connections you have with your babies, no matter how old they are!

These sessions capture your unique bond and creates everlasting memories.

Throughout the years your little ones will love looking at these beautiful photos with you in them.

One day there will come a time when all they have are precious memories and photos of you.

# Rainbow sessions

A Rainbow Baby is a baby born after the loss of a previous baby due to miscarriage, stillbirth or death in infancy. The term is given to these special rainbow babies because a rainbow typically follows a storm, giving hope of what is to come.

I appreciate just how important it is to celebrate your new addition, while also remembering your other child or children as an important part of your family, too. I spend some time talking to you about how we can best do this, whether it be using the rainbow colours in a setup - we have rainbow wraps, rainbow headbands, rainbow hearts and a rainbow flokati to choose from, or I can even create a digital background to include a rainbow, a butterfly (like the image opposite). You are welcome to use anything else that is important to you, even a special teddy in your photographs.

Though I've never personally suffered the loss of a child, I always feel this huge tug on my heart when I hear my clients tell me of their loss. I know that this session is even more meaningful and having the privilege of photographing your rainbow baby and seeing your expressions after you view your photographs is something I just can't explain.

I love capturing the most beautiful, unique memories for you and your family.

Creating fine art and timeless

# wall art

A house is just a house, but displaying beautiful wall art of your family on your walls is what makes a house more than just a house, it turns it into a home with beautiful family memories.

Displaying beautiful wall art of your family in your home is a wonderful way to celebrate the love and unique connections you have.

When your family and friends visit they will be able to see your special memories, but most importantly, you will feel the love that always surrounds you.

Your children will also enjoy having their photos on the wall and will always remember the feeling they had when the photos were taken every time they look at the photos.

I will work with you to ensure we create timeless wall art of your beautiful family that matches your home and decor.

We have many beautiful wall art collections to choose from, we pride ourselves in delivering fine art quality products that you will always love and adore.
