

*Embellish* PHOTOGRAPHY  
Wall Art & Keepsakes Guide

You'll never regret preserving the magic & craziness of your family...

*As time goes by the photos that we take today will only increase in value.*

Taking photos is just part of the experience we offer at Embellish Photography, we want you to enjoy the whole process, from the moment we discuss your initial requirements, capture beautiful family memories and sit down at your design consultation and create custom wall art and products that you can proudly display in your home.

There will be a time when the days are no longer filled with the craziness of raising children, the pitter patter of little feet will no longer fill your home, the juggling of organising dinner and washing dishes, the nighttime baths, the reading at bedtime and the sleepless nights.

All that will be left is the precious memories and photos that you have taken throughout the years and how wonderful will it be when your future grandchildren ask to see the family photos and albums and want to hear stories of what their parents were like when they were their age.

This wall art and keepsakes guide shows all the gorgeous wall art collections and keepsake collections we offer.

There is a diverse range of print mediums available to ensure we cater to everyone's tastes,

Please be assured that careful consideration has been taken to ensure the products available are of the highest quality.

Prints can also be purchased individually as well, it really depends on where you are wanting to display your beautiful wall art in your home.

*Gina*

## Print the photos you love

Having professional photos taken is an investment, you don't want to just get the digital files to share on facebook and other social media platforms and then just store them on your computer. Technology is always changing and there's always a good chance that the digital files can become lost over time or even unreadable on the devices they are stored on.

Embellish Photography specialises in delivering fine art products and beautiful wall art that can proudly be displayed in your home. We have sourced a beautiful range of fine art products and wall art collections that cater to everyone's taste. These include desktop prints, boutique albums, wood art, framed prints, framed torn edge prints, ice blocks, metal prints and canvas.

When printing your photographs you first need to determine where in your home you would like to hang your wall art. This is because the size of the wall determines what size your artwork should be.

The image on the right shows what your image will look like in various sizes. It's always important to print in a size that suits the space that you have, otherwise your beautiful art work will be lost with all the space around it.

## Finding spaces to display your wall art

A house is just a house, but displaying beautiful wall art of your family on your walls is what makes a house more than just a house, it turns it into a home with beautiful family memories.

It is recommended that that you take the time to think about where in your home you would love to display your beautiful wall art before your photography session.

The most common places to display your artwork are in the family room above lounges, in the bedroom above the bed, in dining rooms and in hallways.

You can also choose to display your wall art in a storyboard, or if wall space is an issue a beautiful keepsake on a book shelf or coffee table is another option as well as a boutique album to show your favourite images.

in your home.

How to choose the right size wall art for your home.

1. Walk through your home looking at each room carefully to see where your wall art would become a beautiful feature to your home.
2. Use blue tac to stick an A4 size piece of paper to the wall.
3. Take a number of steps away from the wall so that you include the wall and the ceiling in your photo.
4. Stand and hold the camera parallel to the wall and take the photos.
5. Email your photos to me and i'll use these photos to assist in planning your photography session and designing your beautiful wall art to scale at your design consultation appointment.

# Print Mediums

## Canvas - timeless, classic, traditional

The canvas prints have archival inks, hardwood frames and a beautiful hand-stretched finish. Each frame is made from premium, double-profiled meranti hardwood in any size required. The double-beveled profile means your print sits flush against the wall, and the outline of the timber won't show through the front of the canvas.

Canvas' come with a 75 year unconditional guarantee.

## Box Canvas - modern twist

Framed canvas prints are a modern take on the original classic canvas prints. The canvas prints have archival inks, hardwood frames and beautiful hand-stretched finish and are paired with three sleek frame
